PROFESSIONAL SUMMARY

Mern stack Developer experienced in building, deploying, and maintaining responsive web applications across the full delivery pipeline. Leverages a background in full-stack development to bridge user interface design with scalable cloud infrastructure and smooth production releases.

TECHNICAL SKILLS

Cloud & DevOps	AWS (EC2), Linux (Amazon Linux), Vercel Deployments, WordPress Hosting & Server Setup, Git/GitHub branching workflows,
Databases	MySQL, MongoDB (NoSQL, CRUD, Mongoose)
Backend	Node.js, Express.js (middleware, REST APIs)
Frontend	React.js (Hooks, Router, Context API, State Management), HTML5, CSS3, JavaScript (ES6), Bootstrap, Tailwind CSS,
Languages	Java, Python,
Tools	Git & GitHub, Postman, VS Code

EDUCATION

Master of Computer Applications (MCA) 2026 – 2028
Amity University Online — pursuing

Bachelor of Computer Applications (BCA) 2023 – 2026
Babu Shivnath Agrawal (PG) College, Mathura | CGPA: 7.75 | Graduated: 21 May 2026

PROJECTS

Marketing / ESG Data Visualization Website

- Developed a high-performance, responsive web application using React.js to streamline Environmental, Social, and Governance (ESG) data visualization.
- Implemented a modular component architecture for reusability and maintainability across reporting dashboards.
- Optimized frontend performance and UI/UX using modern CSS frameworks, ensuring seamless navigation and accessibility for data-heavy content.
- Deployed and manage the live application on Vercel — handling build configuration, environment variables, and production releases. **Live:** annualesg-eight.vercel.app

WordPress Deployment on AWS EC2

- Provisioned and configured an AWS EC2 instance running Amazon Linux to host a production WordPress site.
- Installed and configured Apache, PHP, and MySQL; managed file permissions and ownership for secure deployment.
- Set up MySQL database users and credentials, and resolved server-side package and permission issues during setup.
- Managed application files via SSH, including safe merging of directories and cleanup of deployment artifacts.

Resume Builder

- Built an editable resume layout with print support, modern styling, and browser-based customization using vanilla frontend technologies.

ACHIEVEMENTS & TRAINING

- Completed a 45-day summer training in Front-End Web Development (15 June – 31 July 2024) with Code Squadz.
- Completed a 45-day summer training in Data Analysis, Artificial Intelligence (AI), Machine Learning, and Power BI.
- Attended a workshop on Fundamentals of Information Technology.
- Participated in an industrial visit to AppSquadz Technologies.

DECLARATION

I hereby declare that all statements made in this application are true and correct to the best of my knowledge and belief
